### Foreword

---

To help you to remember,  
To help you to be loyal,  
To help you to be true,  
To yourself and to the memories of  
the Arapahoe High School, is the  
purpose of this book.

Dedication

---

We, the Senior Class of 1923, affectionately dedicate this volume of the Tomahawk to Mr. F. E. Bowers, who has worked with us, aided us, and sponsored us through our Senior year.

## Our Old High School

---

This is our Alma Mater,  
Which we've all learned to adore,  
For the things that it has taught us,  
And it's ideals true and pure.

For it's here we learned the lessons  
Which from us will ne'er depart.  
Though from it's walls we wander,  
And all of us drift apart.

The friendships too that we've won here,  
By us will ne'er be forgot,  
When out on the world's mighty ocean  
Each one has chosen their lot.

So here's to our Alma Mater,  
The dear old A. H. S.  
The praises that we owe her  
And the thanks we wish to express.

B. H.—'23.

## School History

---

In looking up the history of the school, we found an excellent account of it in the "Zenith" of 1905. Not being able to write it any better, we print the following as we found it:

In the year of 1871, a company was formed at Plattsmouth to found a town, somewhere on the Republican river in the western part of Furnas County. That same year an exploring party chose a site between Muddy and Elk Creeks, naming it Arapahoe, after an Indian tribe living near there. The next year many people came and a new dot was placed upon the map.

The first thought of these sturdy pioneers was "a school," so their children, when grown up, would be a credit to Nebraska and help place our country on a higher plane of civilization. At first these people could not build a beautiful school like we have today; a log structure with rude, backless benches and dough pine board desks must suit them. Arapahoe's first school was a pay school, i. e., a private school.

In 1879 the district was formed. At that time it was like any country school with but one teacher, in a small log building. As time went on and the town grew in size and wealth, the school was moved from small buildings to larger ones, until 1885, when the district decided that it had enough pupils to need a much larger building, so they erected a four-room, two-story brick house, hired more teachers, and graded the school.

Far in the east, where people were crowded and farms worn out, the people caught the land craze, and a grand rush for the virgin soil of Nebraska followed. Arapahoe boomed, more school room was needed so in the year 1889, a north addition was placed on the old building. This gave Arapahoe a fair sized school house, and a high place among the schools of the state.

By the fall of 1895, the high school had in its course of study, enough to become a University accredited school, and this it soon became. Uneventful years quietly came and went, until October 28, 1902. The cry, "Fire! Fire!" startled our citizens at their early evening tasks.

## School History--continued

---

Soon many were hurrying along the moonlit streets toward the reddened northern sky, now far brighter than the Aurora-borealis, soon to see, embraced in a sheet of flames, our school house. When the work of destruction was over and as the people turned sadly away, each remarked to the other, "No more school this year." Such was not to be the case for the school trustees, with true American zeal and Yankee ingenuity, set to work to solve this problem, with the result of a long, low, rough board structure resembling a mining camp hotel, which served from the fall of 1902 to the spring of 1904.

In the meantime, a large brick building was commenced in 1903, which is today a prison dark to the average small boy, a pride to the town, and a corner stone of the state.

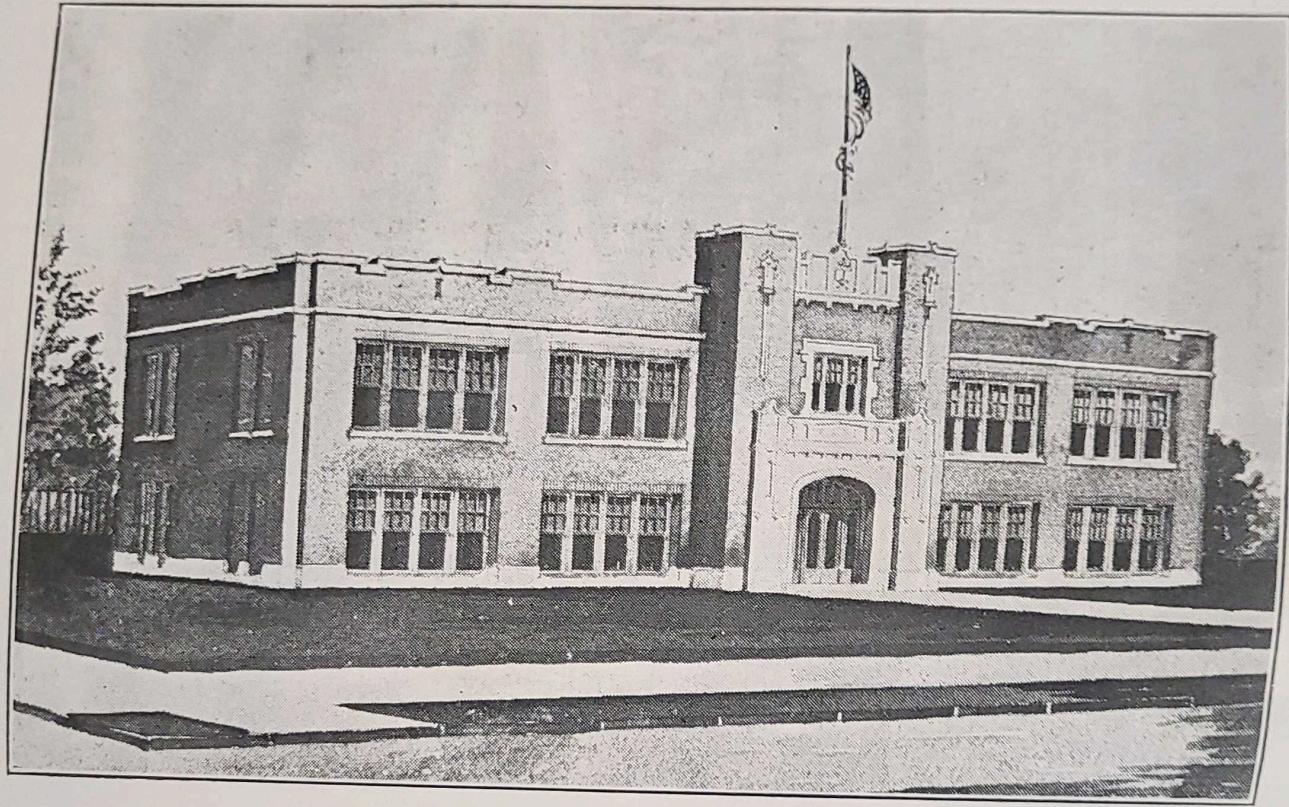

Since 1905, the progress of the school has been rapid and steady. By 1917, the number of students had become so large that a building was needed to accommodate manual training and domestic science. This addition was erected just east of the main building. It was thought that this would be adequate room for all time to come.

But by 1922 the large increase in the enrollment demanded a new building. This demand culminated in the new Senior High now in the process of construction. When this is completed, it will be one of the model school buildings of the state, and one of which Arapahoe will be justly proud.

## Alumni

---

January 5, 1889, the classes of '87 and '88 planned to have a meeting each year, and invite to this meeting, all persons who should graduate from the Arapahoe High School. This was the beginning of the high school Alumni Association in Arapahoe.

Every year since then, this meeting has been held. Each graduating class has been initiated into this association and afterwards, served with a scrumptious banquet.

We the class of 1923, are glad to say that we will soon be considered as members of this association. So in putting out our annual, we have included the names, addresses, and occupations of all the alumni members. This list is as complete as we can possibly make it, considering the number of years since the first class graduated.

We desire to express our grateful appreciation of the kindness and assistance we have received from the Alumni in making this section of our annual a success.

Class Colors ----- Navy Blue and White.

Class Motto—"With the ropes of the past, we will ring the bells of the future."

---

Four years ago—yet, it has really been that long since a sorry looking bunch of Freshmen entered the A. H. S. Well, we managed pretty well that year, partly due to the fact that we had such an excellent sponsor. There were hikes, parties, candy feeds, and everything to break the monotony of our school work. Still we were only Freshmen and we thought we had better study pretty well, so we crawled through without many "flunks."

Then came the eventful Sophomore year. We were now a little more used to the high school life and so fared pretty well. The most important social event which occurred was a Sophomore sneak day. Let me tell you, it WAS a sneak day, too. We all assembled about 8:30 a. m. at the river bridge. Then we sent out some kidnapers to secure a sponsor for us. Well, we got the sponsor and away we went. We did not return till after four o'clock. We all enjoyed ourselves immensely, even though we did suffer from sun-burn and tiredness. We also put on a circus for the high school this year. And with Bessie as the world's fattest woman, and with other things too numerous to mention, it proved to be more than a success. The Sophomore year brought with it some serious quarrels, too. Also skating parties, hikes and other things.

When school started the next year we found that we were Juniors. This year we took a little more interest in school work, than we had the previous years, but still never forgot how to have good times. The "Shining Star" of this year was the presentation of "The Hoodoo," which proved to be a success in every way, and brought in enough money to finance the glorious banquet which we gave for the Seniors.

Now we are Seniors and are glad to say that our class is the largest class that has graduated from the A. H. S. for several years. There are twenty-four of us. Of course that isn't hardly more than half the number that started away back in '19, but remember "Cupid" has come into our midst since then and captured seven of our bunch. Others have gone to different schools and so that accounts for our loss in numbers. The things we will remember our Senior year by, are the putting out of this annual and the Senior Play.

## Class Prophecy

---

Fifteen years have elapsed since the class of '23 graduated from the Arapahoe High School, I decided that I would try to find the whereabouts of each one. Not knowing just how to begin my task, I decided to go at once to an old wizard living in southern Mexico, who, I had been told, could, by some sort of magic power, aid in such matters.

Upon arriving at the place, I was taken into a faintly lighted room, after having descended about ten feet, through a dark tunnel, beneath the top of the ground. Here I found the desired person and so presented my request. His only requirements were that I should not say a word except to tell him the names of the persons whom I wished to find. I hardly knew whom to ask for first, but finally decided upon Clifford Blazier. The wizard sat very still for a few minutes and then began to speak.

"Clifford Blazier is now in South Africa, working as a missionary. He is very successful in his work and has converted more than two hundred heathens within the past year." I could hardly refrain from asking more, but remembering my instructions, I asked about Vera Freed. To my surprise the wizard answered, "She is now residing in London, having become very famous and at the same time rich by her thrilling love story entitled, "Woman's Love."

I decided that I must know about Thelma d'Allemand and this is what I heard, "Miss d'Allemand, known as Betty May, has won fame as a movie star and now ranks as one of the best in her profession. Everyone is raving over her."

Next, I asked him if he could find Marjorie Blackman. He was silent for several minutes but at last replied, "Marjorie Blackman, the world's greatest aviatrix, has chosen to reside at her beautiful home in Saint Louis, during the next year." Could this be the same timid Marjorie with whom I had gone to school?

But being anxious to find the others I asked for Lois Kirkman. What do you suppose I thought when I received the following: "Lois Kirkman, America's most talented opera singer, has gone abroad for a few months, and is now visiting in Paris."

I asked about Fern Dutton and found that she was the leading fashion designer of New York and was, at that time, designing a dress for Miss d'Allemand.

Having always associated the names of Fern and Allen I instantly remembered Allen Chambers, so my next request was to learn something of him. I almost fainted when the wizard related the following story: "Allen Chambers is a professional lion tamer of Southern Australia. He is receiving a salary of \$30,000 per year, and lives in one of the finest homes which Australia affords. His wife, who at one time traveled with a Chautauqua, now aids him in his work. Curious to know who his wife might be, I asked, and found that she was formerly Melba Johnson.

## Class Prophecy--continued

---

My next inquiry was concerning Elmer Richards. I could hardly believe my ears when I was told that Elmer was an expert radio "fan," operating a radiophone in Buenos Aires, S. A. I took for granted that it was true and went on with my search.

This time I inquired about Muriel Kimmel. The wizard replied, "Muriel Kimmel is, at present, dancing instructor of a famous school in New York. She has excelled all others in this line of work and is known throughout the United States and Europe. I couldn't see why Muriel had stayed single so long, but this was no time to ponder over such things for there were several others whom I had not yet located. Eleanor Herrick was among them, so I asked about her. To my joy I found that she had just finished her first term as a Congress woman, and had been re-elected. Well, Eleanor had always wanted to do something great, and I was glad that her wish had been granted.

Next in line of thought was Irma McCoy. And to think that I found her a professor of languages at Vassar College! "She has been very successful in this line of work and every one says she can't be beat."

I allowed the wizard to rest a short time until I could think of the remainder of the class. Deciding that it might save time I prepared a list of their names and gave it to him. He gave me their stories as the names appeared on the list.

First was Bessie Harmon. I learned that she had become a world-famous scientist, now residing at a small town not far from Chicago. Only last year she received the first message that ever came from Mars.

Before I had hardly recovered from the shock, the wizard was telling me about Frank Richards. This is what he said, "Frank Richards, known throughout the world as the champion wrestler, was happily married today to his old classmate, Miss Lois Kirkman."

Then came the news from Iva ten Bensel. She, to my surprise and delight, was reported as being an enthusiastic mathematics teacher at Lincoln, Nebraska.

When he came to Minnie Riepe's name he seemed to have some difficulty, and then he said, "Miss Minnie Riepe, while visiting in Texas a few weeks ago, eloped with a rich oil well owner. Although a diligent search has been made no trace has been found of her." Just as I was getting interested in Minnie's whereabouts the wizard gave me another surprise. This time it was about Leroy Carter.

He said, "Leroy Carter is with a caravan in Egypt. He has grown immensely rich from this occupation, but still keeps up the practice just to satisfy his adventuresome nature."

Next he told me about Pearl Kimmel. I was very glad to find that the desire of Pearl's heart had been realized, for she is now the manager of an orphanage for children, between two and six years of age. Assisting her in her work is Mathilda ten Bensel. Feeling happy at finding two of my classmates at once, I continued my search.

Class Prophecy--continued

This time the wizard gave me news of Lawrence Layman, saying that he was then the manager of Layman and Wright's Circus.

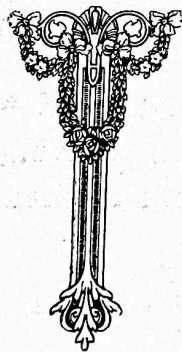

As I was recovering from this shock, came the news that Verne Smith had become a preacher. Who would ever have thought of such a thing happening!

Just at this point he spoke the name of Greta Fisher and, anxious to hear about her, I again turned my attention to the mysterious mutterings of the wizard. I learned that Greta owned a beauty parlor at Hollywood, California. I learned, too, that George Carter was a traveling salesman representing Mr. Smith & Co., and had traveled very extensively in his profession.

Finally arriving at Leona Colony's name which was last on the list, but not least, he related this startling fact, "Leona has been engaged for several years by the government, for the purpose of taming snakes in South Africa."

There remained only one more member of the class of '23 so I asked him about Belle Harmon. The wizard looked puzzled for a time but finally said, "You are her yourself. Your present occupation is just that of a mountaineer school teacher."

This last statement convinced me that all he had said was true. So, after paying him for his trouble, I departed, glad to know that all my schoolmates had been successful, so far, in life.

## Climbing

---

Four years ago we started climbing, up the ladder, round by round,  
And faithfully each task we mastered, that along our way we found.  
Thus a year we spent as Freshmen, pressing on along our way;  
Hoping that fate would reward us, on some brighter future day.

So on through school we ventured, ever seeking to be wise,  
But oft we stopped and vainly wondered, when we e'er would gain the  
prize.

While we mused thus on our progress, a voice was heard on a far off  
shore,

"Don't despair, have hope and courage, you are but a Sophomore."

With new courage for the conflict, and the work before us set,  
We again the ladder mounted, conquerors of the trials we met.  
So we labored on as Juniors, feeling gayer than before,  
For the way looked bright before us, and our steps were sure once more.

Then almost before we knew it, we, another round had made,  
And were heralded as Seniors, then no more were we dismayed.  
For we saw our hopes all answered, with the prize not far away,  
Just a little higher up the ladder, was the dawn of graduation day.

Now we've finished with our school tasks, still the top we've never  
found,

And we hope to keep on climbing, till we reach the utmost round.  
On through college is our object, striving with that zeal and zest,  
Which will make our class distinguished, and our names honored with  
the rest.

Then out into the world we'll venture, where everyone will take his  
stand,

And the profit of our learning, will be known in every land.  
So farewell to friends and teachers, who have helped us on our way,  
May your lives be filled with joy, throughout life's unending day.

B. H.

## Senior Class Will

I, the Senior Class of '23 of the Arapahoe High School, in the county of Furnas, state of Nebraska, being of sound mind and memory, and considering the uncertainty of sound frail and transitory life, do therefore, make, ordain, publish, and declare this to be my last will and testament.

FIRST: I order and direct that my executors, hereinafter named, pay all my just debts and funeral expenses as soon after my decease as conveniently may be.

SECOND: After payment of such funeral expenses and debts, I give, devise, and bequeath the following personal effects:

Allen Chambers leaves his adoration for Fern to Kenneth Kingsley.

Greta Fisher leaves her specs to Clark Sampson. (Use 'em Clark and watch results).

Fern Dutton leaves her giggles to Zola Stedman.

Marjorie Blackman bequeaths her quiet nature to Guy Haine.

Lois Kirkman leaves her bow legs to Merton Horton. (We're certain they'll fit.)

Leona Colony leaves her bashfulness to Azalia Cawthra.

Frank Richards leaves his art of heart smashing to Roy Randolph.

Muriel Kimmel leaves her enduring charm to Blanche Layman.

Melba Johnson leaves her winning smile to Clara May Bratt.

Pearl Kimmel leaves her good grades to Al Benjamin. (Make use of them Al).

George Carter leaves his ambition to Kenneth Burden.

Thelma d'Allemand leaves her vamping eyes to Glenva Girch.

Elmer Richards leaves his love of argument to any member of next year's English class who desires it.

Mathilda ten Bensel leaves her rosy cheeks to Opol Stumpff.

### Senior Class Will--continued

---

Bessie Harman leaves her height to Fred Evans. (We will agree that you need it, Fred).

Vera Freed leaves her love of Art to Eva Rude.

Irma McCoy leaves her desire to study to Raphael Marti, with the hope that he'll use it.

Belle Harman leaves her initiative to the Freshies.

Minnie Riepe leaves her desire for the beautiful to Edwin Lewis.

LeRoy Carter bequeaths his happy-go-lucky nature to Clarence Thomas.

Eleanor Herrick leaves her originality to Edward Troupe.

Verne Smith leaves his stand in with the girls to Hayde Crowell.

Clifford Blazier leaves his willingness to work on annuals to any member of the next class that puts out an annual.

To the juniors we leave our pep.

To our sister class, the Sophomores we leave our stand in with the faculty and the public.

To the Freshies we leave a pound of advice, which, if properly used will be very helpful.

To the faculty, we leave our golden dreams of the future.

Lastly, I make, constitute, and appoint the board of education of the Arapahoe High School, to be the executor of this, my last will and testament, hereby revoking all former wills made by me.

In witness whereby, I have hereunto subscribed my name, this day of all days in the year of our Lord, nineteen hundred and twenty-three.

Signed: BELLE HARMAN.

"Mary's Millions," is a comedy in three acts. The story is centered around Mary Manners and Jack Henderson, Boggs and Mrs. Mudge and Eudora have the three comic parts. Mary has been away to school. She comes home with her aunt Jane and two friends, which her aunt invites. The Count and Countess Victor de Selles. Jack is very glad Mary has come home. Mary's aunt hates Jack and arranges a marriage for her with the Count. Jack and Mary are both broken hearted. Mary loses her necklace and the count finds it and puts it into his pocket. Mrs. Stoneham and the countess plan to keep Jack away from Mary. The Countess takes the necklace and drops it into Jimmy's pocket by mistake, getting Jack and Jimmie mixed. Jimmy finds the necklace and gives it to Jack. Ezra invests Mary's money in the consolidated air line. The Countess makes love to Jimmy and causes Betty a lot of grief. The ouija board says that Jack stole the necklace. Boggs arrests Jack and the Count. Jack produces the necklace. Jimmie uses his head and says the consolidated air line failed as he strongly suspects the Count. Boggs tells how he saw the Countess drop the necklace in Jimmie's pocket. The Count don't care anything about Mary now that her money is gone. The Count and Countess are sent out of town. Mary's money is restored, Mary and Jack, Betty and Jimmy, Boggs and Eudora are all to be married and all ends happily.

## Baccalaureate

---

The baccalaureate sermon was given in the Methodist church Sunday evening, May 20, 1923. Rev. Porter from Beaver City, gave the sermon. The Seniors all wore caps and gowns, as they were considered the proper things to be worn. The sermon was greatly enjoyed by one and all of the seniors.

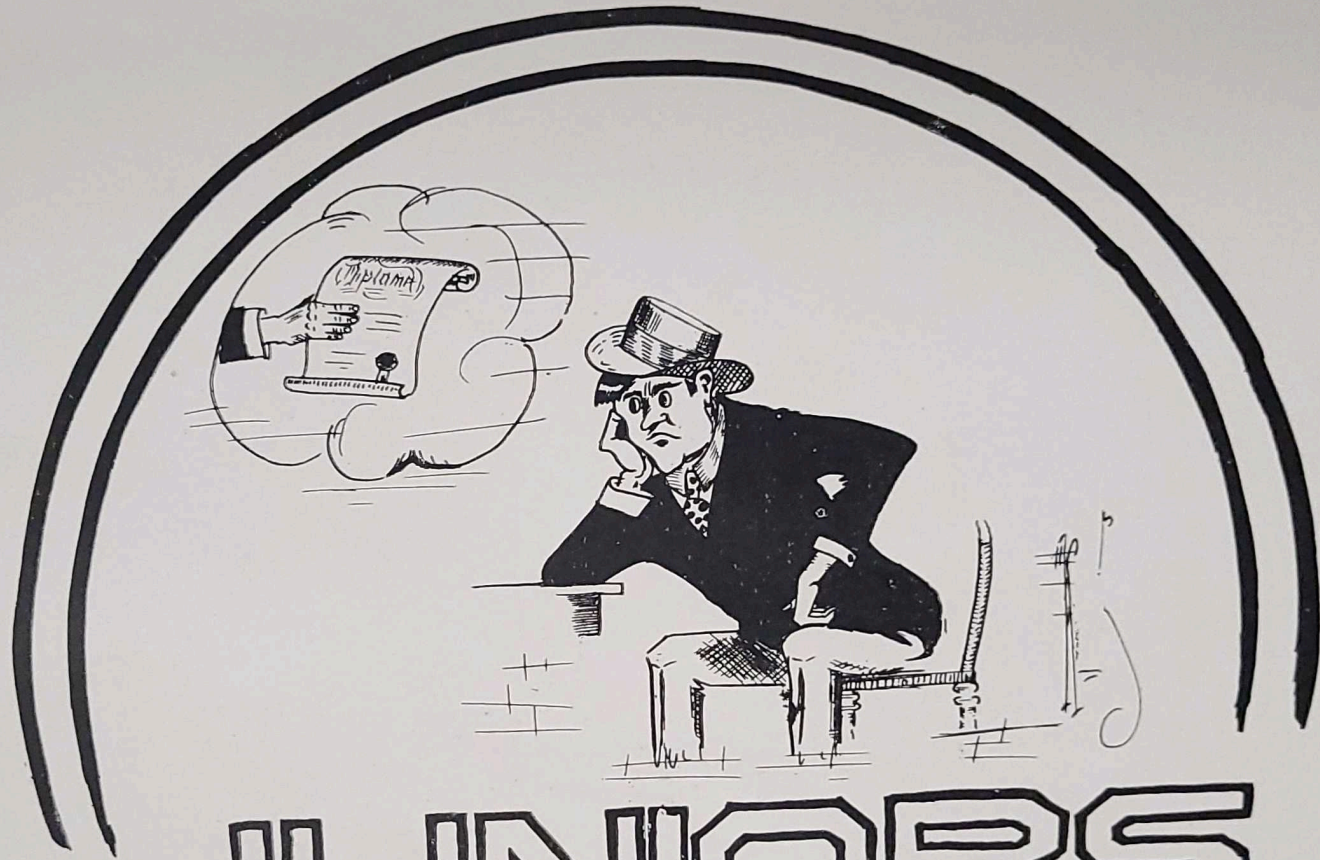

## Commencement

---

The commencement exercises for Arapahoe graduating class of 1923 was held in the Opera House Friday, May 25, 1923. The address was given by Professor E. L. Rouse of Scottsbluff. The subject of his speech was, "Strong in the Pinches."

The class looked very nice, as every one wore caps and gowns. They all felt that this night of all others, put a great responsibility on their shoulders, because they were turned loose to make their own way. We believe they can do it too.

## Junior Class History

---

"Look at the Freshies!" "Too green to burn." "Look how scared they are!" "Too scared to talk."

These remarks and many others greeted us on the first day of our high school career; but we didn't let this discourage us. Through the jeers and sneers of the Sophomores and in spite of the advice and head-shaking of the Seniors, and other classes who have gone before them, we ascended the ladder of success to our present worthy station.

Social events of this year consisted of a watermelon feed, a Hallowe'en hike out to the bluffs, skating parties, a Christmas party and a party at the Kimmels' home.

The next year the Freshies entered the Sophomore class with flying colors. New class mates were joining them and older ones were dropping out.

Picnics and sociables of a more dignified form were again profusely participated in. There was a surprise birthday party on the sponsor, the Sophomore-Senior banquet, and a Sophomore-Senior picnic at the Oxford lakes.

And now we are Juniors; The expenses of the class have been heavy and in order to meet them we have successfully staged a play.

Not for one moment have we neglected our social pleasures, for we sincerely believe and practice that old saying, "All work and no play makes Jack a dull boy." Hallowe'en we were spirited away to the country, where we spent the evening at the Utterback home.

During this year the monster of matrimony entered our class.

The standards of scholarship have not been lowered, for the class is still making dandy grades in all their subjects.

Such is the incomplete record of the Junior class. We believe that we have been faithful over a few things, and with strong hearts and high hopes we anticipate still greater achievements in our Senior year, and in the years that lie out in the future. Now watch us!

By one of 'em.

## Junior Play--continued

### CONCERNING THE PLAY

"Am I Intruding?" is a thoroughly modern comedy, causing laughter galore, based on a mystery plot that holds the attention from start to finish and comes out quite differently from what anyone in the audience is expecting. There is really no big star part, all the people in the cast having an unusual opportunity to shine as individuals.

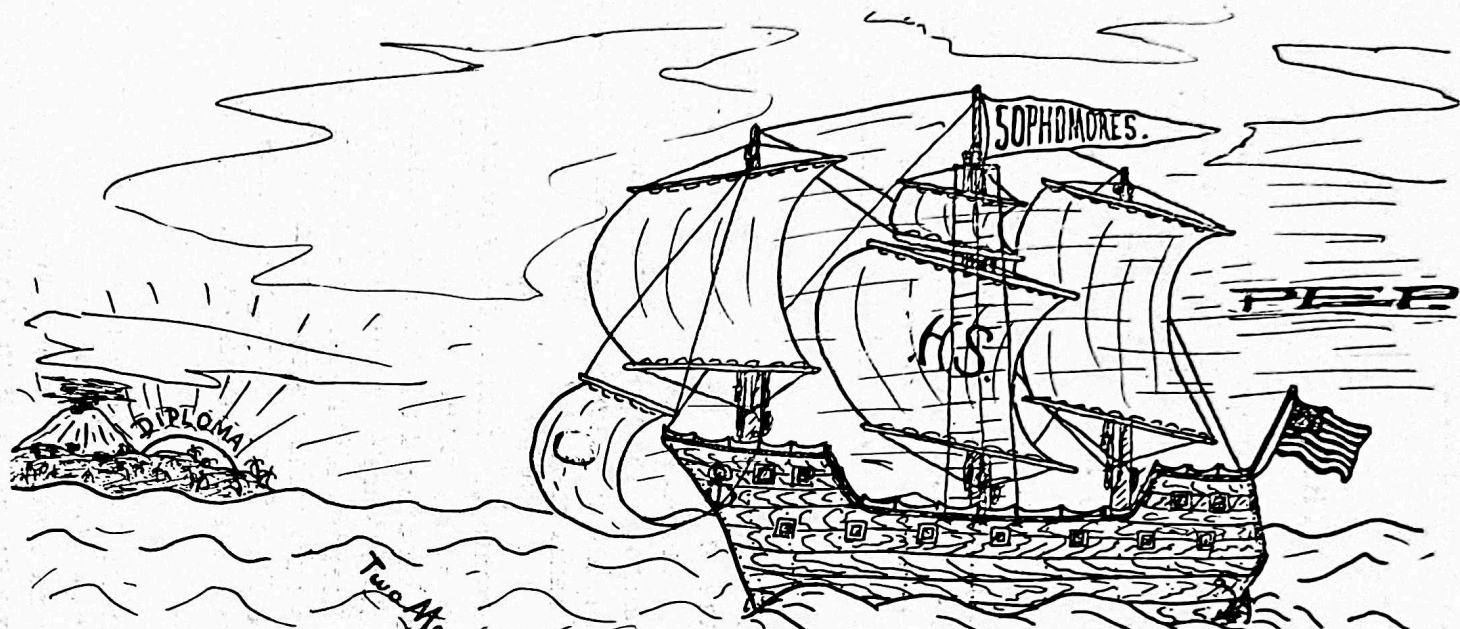

The action hinges around the efforts of Horace Vare, a wealthy business man, to keep from being frozen out of the Bluebird Motor Corporation, in which he is a heavy stockholder. Blair Hoover, an adventurer, acquires some notes of Vare's when the latter is short of cash, and threatens to ruin him unless he will sell the Bluebird stock at a low figure.

Vare had been forced into a tight corner financially, when Jerry, eccentric son of his comrade of years ago, appears on the scene. Jerry is a regular rustic tornado, and sets out, not only to save the stock for Vare, but to win Vare's daughter for himself. Jerry arrives fresh from Sage Creek, by Heck! and is about as much at home in the palatial Vane household as a bull in a china shop.

Besides his whirlwind courtship of Maggie, Jerry furnishes much amusement for Maggie's slangy young sister, Vi, and the latter's bosom friend, Dora, who is "tho dithcouraged over her love affairth." And he upsets the stately demeanor of Vare's studious niece, Jane, and her serious minded secretary, Earnest. Meanwhile we wins the admiration of Dickie Waldron, who is busy raising a moustache, and of Peter, Vi's schoolboy sweetheart. He flees from the winning wiles of Mona, the pert little French maid, and keeps his eagle eye on Mrs. Hastings, the mysterious woman in black.

Throughout the three acts of "Am I Intruding?" the rapid action brings about one situation after another in which are mingled thrills and laughter. The comedy is natural, not forced, the characters have the little mannerisms which we see about us in every day life, and the interest is well sustained to the final curtain. Every character in the play is worthy of a star actor.

### SOPHOMORES

When school started in 1921, thirty-six boys and girls registered as Freshies and immediately started in on Algebra, Latin, English, and General Science. At the end of the first semester their studies had got the best of a few. One or two became discouraged and left school. When the second semester, ended, a few more had failed.

When we came back after summer vacation, only twenty-five registered as Sophomores. Of the missing eleven, some had quit and the S. O. S. claimed nearly all the rest.

Our first sponsor, Miss Johnson, made possible many happy parties and hikes. We are all thankful to her for getting us started out right.

This year, with Miss Bergland as our sponsor, we have had lots of fun, and hope to have more before school closes.

The Freshman class entered the high school this year, with an enrollment of fifty-two.

Our most important class function was a Hallowe'en party, at the home of Sylvia Hill. When the guests arrived, they were conducted through ghostly caves, over mysterious ground on which one could not stand upright, and through all kinds of mysterious places. A fortune teller foretold events in the lives we are yet to lead. After this we played a number of games which we all enjoyed. We were next treated to a fine lunch, with which everyone was satisfied. After the lunch the lights were put out and a ghost story was told. Every one had a good time and no one wanted to go home when the time came.

We had very much fun at a wiener roast. We went to the river after school, After having found a suitable place, which happened to be a sand-bar, we played some games. When it began to grow dark we roasted and ate our wieners. We stayed till after dark and we then decided to go home.

When the ice became safe, we decided to have a skating party. We filled our lunch packs and went to the skating ponds. The ice was fine and after skating until about six thirty we ate our lunch. After this we skated until nine thirty and as we were pretty tired we departed for home.

## As Freshies of '23

---

Well, here we are to greet again,  
I suppose you all wonder where we've been,  
We've been dealing with friends and foes  
We've received our goods of pelts and blows.  
Our young hearts may not forget,  
We hold our best of honors yet.  
To speak of fame, why, we're left out,  
We never know what we're about.  
In English class we have a time,  
Verbs and nouns are just sublime  
In Latin class my land! Oh my!  
I know our teacher would like to fly.  
In Algebra we're just the same  
But then I guess that we're to blame.  
In General Science we rush along,  
Then stop to look back and find it's all wrong.  
If a Sophie invites us to a party of theirs,  
They give us some terrible frightful scares.  
Just the moment that we sit down,  
Every one begins to frown.  
Our hands! Oh my! How big they are,  
They're bound, the rest of the party to mar!  
Our great big feet are just a sight,  
We draw them back with all our might.

We Freshies dear!

Well, just the same no matter where—  
We'll have our heavy load to bear.  
Through three more years of this here stuff  
Unless of course some of us bluff.  
I expect some smiles would be preferred  
But we've opened our hearts to you all.  
United we stand, divided we fall.

## Class Will

---

To whom it may concern. I do hereby bequeath to the Freshman Class of 1923-'24, their heirs and assignees the following: Fred Evans his becoming smiles to Mable Dunlap, Clara Hartman her pigeon toes to Julian King; Wayne Booker his snowy hair to Gladys Anderson; Henrietta Puls her studying ability to Bede Williams; Florence McCray her gum chewing habit to Doran Bowers; Orin Horton his whispering disposition to Viola Cole; Verna Dutton her winning ways to Maxine Murphy; Geoffery King his abundant knowledge to Hazel Rude; Beryle Cawthra her yellow hair nets to Orville Dutton; Andrew Koelmel his fat to Gladys Horton; Raymond Michael his blue eyes to Merle Kirkman; Leitha her specks to Russell Hill.

The rest of the class dedicate to all future Freshies, our shroud of green which we willingly cast aside this, our last year.

### CLASS HISTORY

---

At the beginning of the school term it was discovered that there were several students who, for one cause or another, did not fit into any of the regular classes.

A meeting of these students was called and out of this gathering developed the organization of the special class, nick named "S. O. S." (For particulars of the name, consult Rouse).

Several of the names have loomed up in the football record and it is hoped that it will be the same in spring athletics.

The S. O. S. class has been noted for its peppy class affairs during the school year.

In the Annual subscription contest, they were very fortunate in winning the prize for the class having the best percentage. The S. O. S. percentage was 93 2-3.

We all like the story that was very popular with the army in France. It is a tale of a negro who was beating it for the back areas as fast as he could go, when he was stopped by a white officer.

"Don't delay me sir," said the negro. "I'se got to be on my way."

"Boy," replied the officer, "do you know who I am? I am a general."

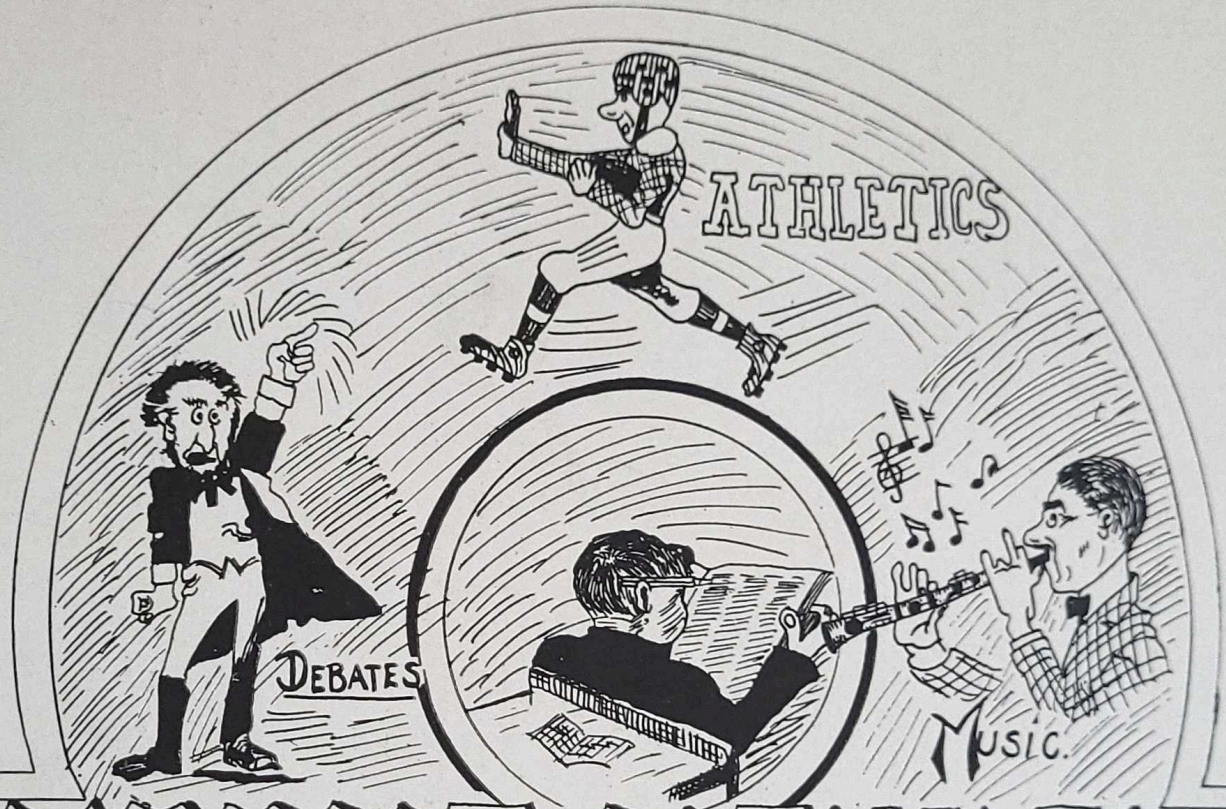

"Go on, white man, you ain't no general."

"I certainly am," insisted the white officer angrily.

"Lordy," exclaimed the negro, taking a second look, "you shure is; I musta been travelin' some, cause I didn't think I was back this far yet."

# STUDENT ACTIVITIES

## Student Activities

---

The year of 1923 has been an unusually successful year in all respects.

### FOOTBALL

We have a good reason to be proud of the record made this fall on the gridiron. Up to the first of November, Arapahoe was one of the 8 undefeated teams in the state. The boys in blue played a brand of football not seen in Arapahoe for many years and made a state wide reputation for their Alma Mater. It will take the support of every student next fall to keep up this wonderful record and keep the A. H. S. among the best in the gird sport.

### GIRLS BASKET BALL

We believe our basket ball team was the best in the southwest this year, first because they were defeated but once, and second because they took this defeat in such a sportsman-like manner. They were the southwest champs the preceding two years.

### BASEBALL

We did not have boys basket ball and so every one was anxious for baseball season. Much interest was taken in this sport and we had one of the best teams ever known in the history of the school. Arapahoe is making her a name in athletics.

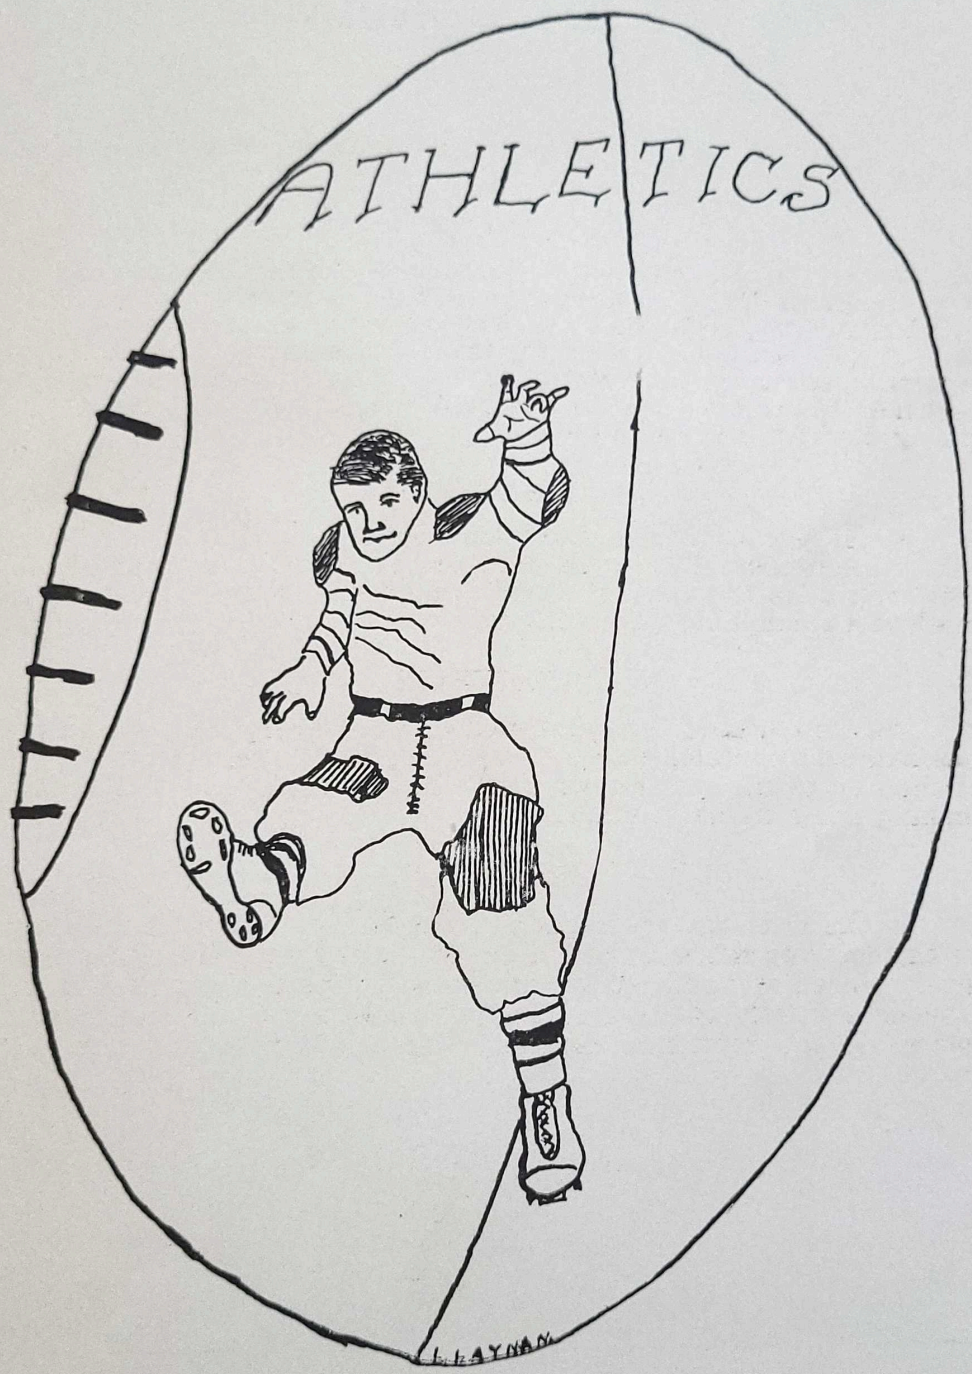

### DECLAMATORY

In the Declamatory Section of the student activities we are proud of the showing made by our high school in dramatics. Our representatives showed splendid ability and good training which caused them to appear perfectly at ease on the stage. Both of our contestants won places in the sectional contest, Verna Moore taking first in Dramatic.

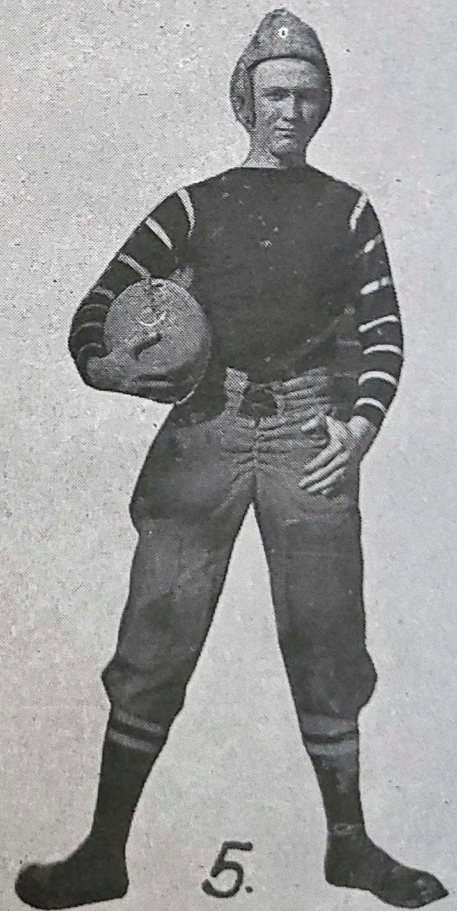

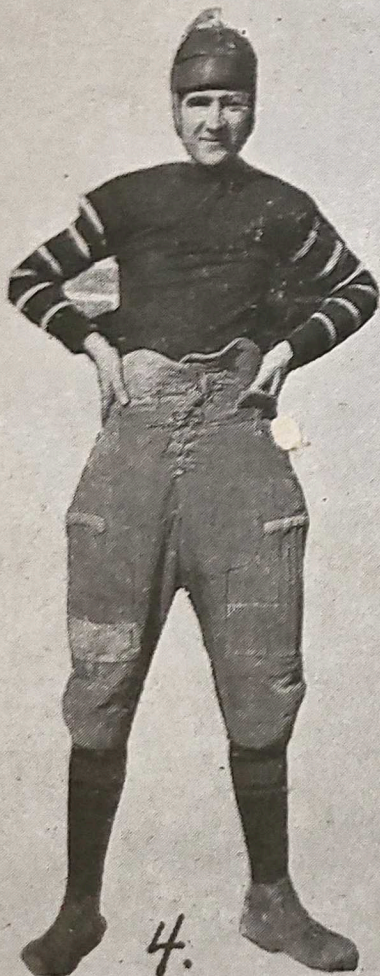

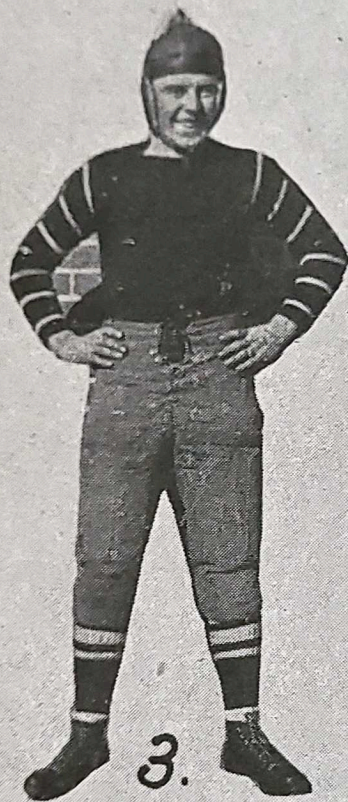

ATHLETICS

LAYMAN

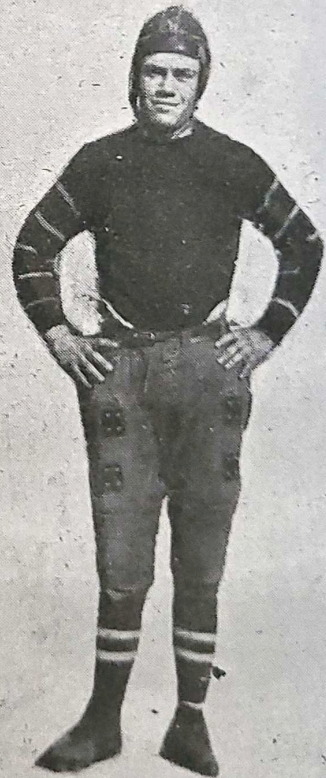

1. **CLAUDE MATHER**—  
Fullback; 1 left; 3rd  
year of playing.  
“Matt” was our best  
passer, kicker, and open  
field runner. He was al-  
so a stone wall on the  
defensive, filling all  
holes.
2. **FRANK RICHARDS**—  
Second year on team;  
end; Senior.  
“Frankie was a whirl-  
wind on defense, nab-  
bing many a fast back  
before they got started.  
His offensive playing  
was also very good.
3. **RUDOLPH d'ALLEMAND**—Halfback; Junior; 3rd  
year.  
Watch him go! 28, 44, 66, and he is gone around the  
end and out of everybody's reach. He is also good at  
tackling on the defensive, and also good at blocking  
passes and is always out to practice.
4. **VERNE SMITH**—End;  
Senior; Second year on  
team.  
Smithy was a past mas-  
ter in the art of pulling  
passes from the air. His  
defensive was also very  
good.
5. **GEORGE CARTER**—  
Quarterback; Senior;  
4th year.  
George has piloted the  
team through some of  
the hardest games in  
the last two years. He  
is small, but oh Boy!  
You ought to see him go  
down the field dragging  
a couple of opponents.  
We will miss him next  
year.

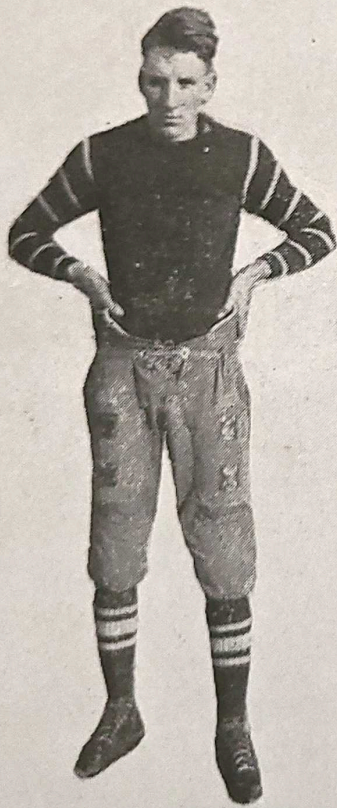

1. L. T. ROUSE—(Coach)
2. HAYDE CROWELL—  
Tackle; Junior; 3rd year.  
Hayde was one of the main stays in the line. Always in the right, and frightening the other team by his terrible tackles. He was also a good man at opening up holes in the line.
3. KENNETH BURDEN—  
Halfback; Sophomore; 1st year.  
——?— was always a line plunger, and always made the other line work hard to stop him. On the defense he would stop every play that got by the line. Look out opponents, next year.
4. HAROLD WILLIAMS—  
(Captain elect) Halfback; Sophomore; Second year on team.  
“Speck” sure made the other team look small when it came to line plunging. He would hit what was seemingly a stone wall but would come out on the other side of the wall. Watch him go next year. Never missed a night of practice.

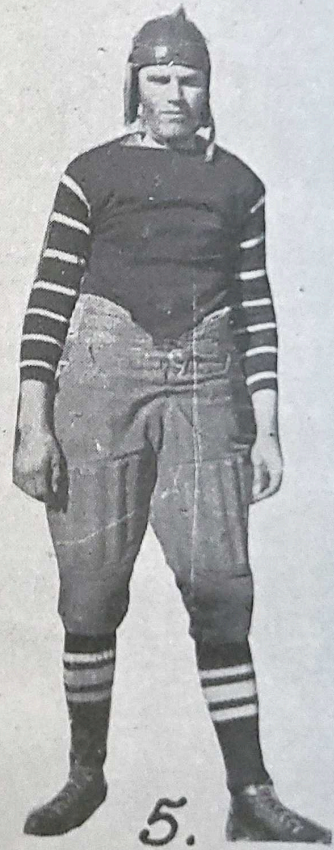

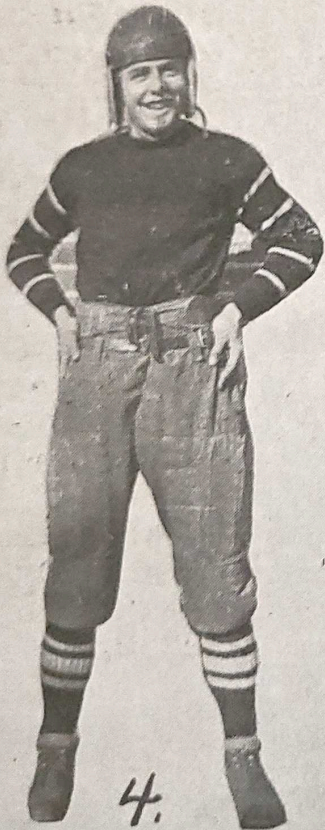

1. WM. L. McCRORY—  
(Assistant Coach)
2. WILLARD BAXTER—  
End; Junior; 3rd year  
on team.  
Oh My! How those old  
backs on the other team  
would shun him. He  
would tackle them so  
vicious that they would  
try to avoid him every  
time they could. He  
was also a good safety,  
never letting a man get  
by.
3. ALBERT BANJAMIN—  
Center; Junior; 3rd  
year.  
Nicknamed "old faith  
ful." Never been out  
in 17 games. He sure  
could get the ball to the  
right place, and on de-  
fensive he could gauge  
the backs and stop every  
center rush.
4. WILLIAM BAXTER—  
Halfback; Junior 3rd  
year on team.  
Bill was always a terror  
to the opposing team.  
When on tackle he  
would break through  
and spill the backs for  
losses. On halfback he  
was a dandy end runner  
outrunning many an end  
and back.

1. LAWRENCE LAYMAN  
—Guard; Senior; Two  
years on team.

Layman was a stonewall on the defense and an exceptionally good hole opener on the offense.

“The best lineman of them all.”

2. WILLARD LABOUNTY  
—Tackle; Junior; 1st  
year.

“Gib” has weight to make a real tackle. He always is fighting to hit the other back before he got started. He was always moving other tackles and guards, whether all-state or others. Watch him next year.

3. LEROY CARTER—Guard; Senior; Second Year.  
“Stubb” sure looked funny, but if you ever watched him make those holes, you would change your mind. He was all fight and say, you never heard anybody talk it up more than him. He also was good on the defense.

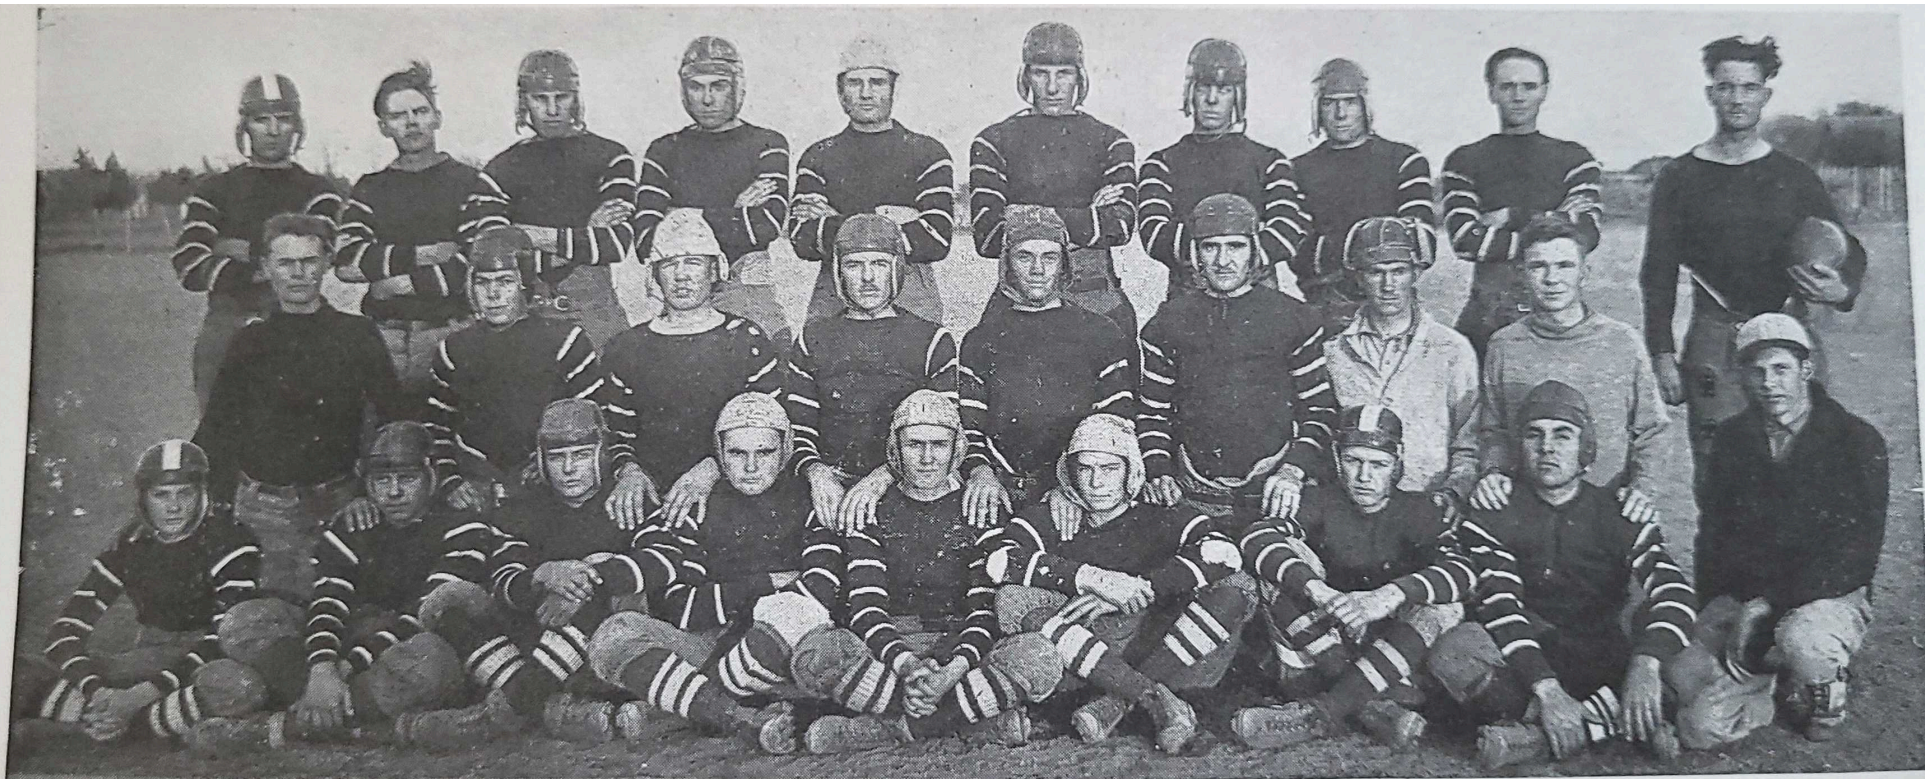

4. ARTHUR ZIKE—  
Guard; Sophomore; 1st  
year on team.

“Art” was always there with lots of pep and fight. He played equally well on both offensive and defensive. Watch Art next year.

5. GEORGE MICHEL—  
Tackle; Sophomore; 1st  
year on team.

“Judge” played a wonderful game and was a terror to opposing backs because of his deadly tackling.

TOP ROW—Baxter W., Troupe, Michael, LaBounty, Layman, Benjamin, Crowell, Burden, Utterback,  
Mather (Capt.)  
SECOND ROW—Blazier, Gamel, Kingsley, d'Allemand, Williams, Smith, Meyers, Moore.  
LOWER ROW—King, Koehmel, Zike, Carter L., Carter G., Bellamy, Richards, Baxter (Bill), Rouse,  
(Coach)

## The Squad

---

This is the squad as they appeared on November 2, after one of the hardest weeks of practice ever experienced.

The man who goes into the game and fights against a team that is threatening his own goal and the reputation of his school, works. But he has an incentive to do so. The spirit of team play, the cheering crowd, and the glory of his school are driving him on to victory. The credit and glory he receives, he deserves, and earns, and no one would take it from him.

But sometimes, we forget the almighty scrubs, who go out night after night, and receive the hard knocks of scrimmage, and go through the tiresome routine of training, without the cheering crowd or the glory of the game as an incentive.

No small portion of the honor and glory the A. H. S. has won on the gridiron in the past two years, goes to the boys who were out every night under the leadership of their faithful quarterback, Doran Bellamy, to give the "Varsity" a taste of the real thing.

So here's to the "scrubs." Let's don't forget them.

## Huntball Season

The 1922 football season was one long to be remembered in the annals of A. H. S. history. All the towns, save one, which were played in the Southwest, went down before the splendid offensive machine of the Arapahoe warriors.

The season opened with a practice game between Arapahoe and Oxford in which the game little Oxford team held our boys to a scoreless tie.

The boys came back to Arapahoe and went through a grueling week of practice in preparation for the big game of the season. For many years Cambridge has had one of the best teams in Nebraska, and we are proud of her for it. But last fall, on Sept. 28th Cambridge got the surprise of her life. She came on to our gridiron confident of an easy victory but after the first terrible onslaught of the Arapahoe defense she saw, too late, that she had run up against real football. The game was a battle from whistle to whistle, and ended in a 12 to 12 tie, a game never to be forgotten by those present.

Oxford came back the next week with a large crowd and a big determination to take our scalp home with them, but alas a big change had come and they were taken down to the tune of 42-12 by Captain Mathers' fighting men.

The big Swedes then invaded our territory and were sent home with the short end of a 7-0 score. Minden put up a splendid battle and they deserve much credit for the fight they made.

We next tried our luck on foreign soil, and old jinx was with us all during the first half. Try as we might the big McCook warriors plowed through our line and tore 'round our ends, and things looked bad for the white and blue, but the old fight came back in time to save us from defeat and we held them to a 13-13 score.

On Oct. 27th we went to Orleans and had little difficulty in walking away with the big end of a 31-0 score, in which game we atoned for the defeat suffered at their hands in '21.

Next came the big steam roller from Lexington, a team of older men outweighing our boys 12 pounds to the man. And they licked (?) us 12 to 0. But that don't tell the story of how Lexington could only go through for one lone touch down and had to resort to the toe of their all-state quarter-back for the rest of the brilliant defensive of, Wil-

---

liams, LaBounty, Mather, Carter, the Baxters and all the rest. They fought hard against big odds and we feel that after all it was our victory, instead of the only real defeat.

At this time, Rouse was forced to leave on account of sickness. The next week, the boys showed that they had real stuff in them by taking McCook to a good trouncing, (17-0) in the absence of their coach. Mather and William Baxter worked exceptionally in this game. Williams and Burden coming in for their share of the laurels.

Thanksgiving day was an unlucky day for Arapahoe. Having both Williams and Crowell out we suffered another defeat, though the score tells nothing of the game. We were gaining constantly but lacked push to put the ball over. Our penalties were 105 yards to Minden's 5—although they won. We have won 2 out of 3 games with Minden.

As a whole our season has been more successful than it has been for years. Due to "Curly" Rouse's coaching we have been able to pile up 10 victories, 3 ties, and 4 defeats in the last 2 seasons. We have defeated McCook, Orleans, Minden, Oxford, Beaver City. Next year we are looking forward to a more successful season as we have lost only 5 men and will have 12 letter men back in suits.

## Girls Basket Ballers

---

TOP ROW—Coach Bergland, Kimmel A., Stumpff, Dutton V., Layman, Newrock, Snyder, Mills.

SECOND ROW—Kimmel M., Dutton F., Rude, d'Allemand, Thomas, Kimmel P.

1. MURIEL KIMMEL—  
Clean sportsmanship. A real basket ball player, in every respect. Scored a good many points for the team.
  
2. RUTH THOMAS—  
Played a good game throughout the season. Has the ability to make either a successful center or guard.
  
3. FERN DUTTON—  
Fern's ability to throw goals gave Arapahoe the long end of the score more than once.
  
4. PEARL KIMMEL—  
Pearl is one of the few players that can keep up her fighting spirit throughout the game. She is to be classed among the clean players.
  
5. EVA RUDE—  
When in a tight position, Eva can come forward with a determination to win. She is always on the job.
  
6. THELMA d'ALLEMAND—  
An A No. 1 player. Played a consistent game throughout the season. Outclassed any guard she met. Thelma plays a strong defensive game.

## Basket Ball Girls History

There was no time lost in starting the basket ball season this year. The girls were all anxious to get started, and after getting the grounds cleaned off, they got down to business.

The girls chosen to represent the Arapahoe team were, Fern Dutton and Muriel Kimmel, forwards; Thelma d'Allemand and Pearl Kimmel, guards; Elsie Michel, jumping center, and Eva Rude, side center. Ruth Thomas was the substitute for jumping center, and the other "subs" were Margaret Mills and Verna Dutton, forwards; Alice Kimmel and Phyllis Snyder guards, and Blanche Layman, side center. Thelma d'Allemand was chosen as captain of our team.

Our first game was played with Hendley, on Sept. 29, 1922, on our own grounds and won with a score of 16-6. We did not return the game because they cancelled it for some reason.

Our second game was played with Holbrook, on Oct. 19, 1922, and was played on Arapahoe's grounds. Again the Arapahoe girls were victorious, coming out with a score of 24-5.

When the game was returned Oct. 27, the second team was put in at the beginning. One or two of the first team took their places, but when the second half started the first team took their places, and again we were victorious, coming out with a score of 9-6.

Our next game was with Beaver City, on Oct. 20. This game was played on our own grounds, and was a hard fought game, but the girls did good work, and were victorious, coming out with a score of 18-16.

The return game, on Nov. 10, was not so easily won, as one of the forwards could not play, and a substitute had to take her place, but we were victorious again, the score being 33-23.

The next game was on Armistice day, Nov 3, and played on Arapahoe's grounds, while the opponents were Edison. The Arapahoe girls were again victorious with a score of 20-12.

Our last and hardest fought game was with Mascott, on Nov. 2. We had a real fight when we played this game. It was played on Mascott's home grounds. For the first time in three years, we were beaten by a score of 17-16, in their favor. They promised to return the game but as they did not, we decided that they were afraid of us. We did not play a Thanksgiving game.

Miss Alice Bergland, was chosen as our coach, and much appreciation is due her for her efforts spent in coaching us.

Four of the team will not be with us next year, as they go out to win in other things, as well as in basket ball.

Losing one game in three years, isn't a bad record, and we are proud to say that we are good losers, as well as winners.

## Baseball

The prospects for a winning baseball team, are perhaps the brightest that the school has ever had. Due to the ineligibility, the team is slightly weakening, but there is a wealth of material.

"Pat" Burden was elected captain and he makes a splendid, heady field marshal. He shoulders the burden of doing the receiving or catching job.

In George Michel, we have a very promising young pitcher. For another pitcher, a show ball artist, we have Lawrence Layman.

The infielders are "Bill" Baxter, Frank Richards, "Speck" Williams, "Bill" Stevens, "Tom" Haine, and Lawrence Layman.

In the outfield, we have Allen Chambers, Merton Horton, and Claude Kimmel.

Most of the boys are old seasoned ball players of known ability.

We have a nine game schedule and we intend to win every game. Our schedule is as follows:

March 30—Elwood at Arapahoe.

April 6—Oxford at Oxford.

April 13—Stamford at Stamford.

April 20—Oxford at Arapahoe.

April 27—Beaver City at Arapahoe.

## Operetta

The Operetta given by the Arapahoe High School on Jan. 19, 1923, was entitled, "In Old Louisiana." It consisted of twelve main characters and a chorus.

The cast of characters were—"Old Ned," a colored servant—Guy Haine, Baritone; Rose, Pilot Farley's adopted daughter—Bernadine Haine, Soprano; Richard St. John, a young sugar planter—Verne Smith, Tenor; Simon Scudder, Pilot Farley's overseer—Edwin Lewis, Bass; Holly Timms, a shady lawyer from New Orleans—Harold Williams, Tenor; Jack Martin, a friend of Scudder's from New Orleans—Clifford Blazier, Baritone; Martha St. John, Richard's sister—Thelma d'Allemand, Soprano; Monty Gray, a friend of Richard's from the North—Harold Cawthra, Tenor; Pilot Robert Farley, Pilot on the good steamer, "Eclipse," owner of the Sans Souci Sugar Plantation—George Carter, Baritone; Judy, Old Ned's wife and the best cook in Louisiana—Lois Kirkman, Contralto; Marquis De La Tour of Bordeaux, France—Lawrence Layman, (no music); Bruce Mac Dougal, the county sheriff—Albert Benjamin, (no music); a chorus of Southern planters, their wives, daughters and sweethearts.

All three acts took place in Pilot Farley's garden on the bank of the Mississippi, in Louisiana.

---

### STORY OF THE OPERA

Pilot Farley and a three year old child are the only survivors of the ill-fated steamer, "Winona." The pilot adopts the child and brings her up as his own daughter. The opera opens when this child, who is known as Rose Farley, has grown to young womanhood.

Rose is loved by all, and returns the affection for Richard St John, a young southern sugar planter, whose lands join those of the "Sans Souci" sugar plantation owned by Pilot Farley.

Simon Scudder, overseer of the "Sans Souci," also loves Rose. Because she refuses his attentions, Scudder plans, with the help of Jake Martin and Holly Timms, a shady lawyer from New Orleans, to claim

## Operetta--continued

---

that the child rescued by Pilot Farley is the daughter of an octoroon slave, purchased by Martin from Mr. Trombly some years before, who was being sent to him on the steamer, "Winona," fatal ship.

Rose, not knowing who her parents were, refuses to become Richard's wife because she fears she may have negro blood in her veins, although she is unaware of Scudder's plot.

The conspirators confront the pilot with a forged paper of their claims, but Richard intervenes and accuses Scudder of the falsity of the document. This leads to a duel between Richard and Scudder. Scudder shoots before the signal agreed upon and wounds Richard in the hand. According to the code of dueling, Richard is allowed his shot, but he cannot bring himself to take a man's life in cold blood.

Rose and the pilot's guests are attracted to the spot by the firing. Scudder is about to tell Rose that she is an octoroon, when he is interrupted by the arrival of Sheriff MacDougal and the Marquis de la Tour, and the latter proves to be Rose's grandfather. The Marquis, whose agents have recently discovered that Rose is the daughter of his son, who was lost with his wife on the "Winona," comes to the "Sans Souci" in time to frustrate Scudder's plans.

Scudder, Timms, and Martin are put under arrest and have a long term of imprisonment facing them. The Marquis gives his consent to the marriage of Rose and Richard, and all ends happily.

There is also a very pretty love affair running through the opera between Richard's sister, Martha, and his friend Monty Gray, from the north. Also numerous comedy scenes between Old Ned and his wife Judy, colored servants of the Pilot's.

The Operetta was given by Miss Benjamin assisted by Mr. Bower. It proved to be a great success. The characters took their parts well and the chorus likewise did ample justice to their parts.

The opera house was filled to its capacity. It was enjoyed by all because of the skill with which it was performed and also because it was something unusual.

## Orchestra

---

Fern Dutton -----	Piano
Verna Moore -----	1st Violin
Carlie Krumme -----	2nd Violin
Albert Benjamin -----	Flute
Doran Bellamy -----	Piccolo
Orval Moore -----	Cornet
Jeoffery King -----	Cornet
Russell Hill -----	Cornet
Harold Cawthra -----	Baritone
Frank Richards -----	Saxaphone

This is the 2nd year our orchestra has been in existence. Our first year was very successful, playing for all school entertainments. We lost several of our best players through graduation. So now it is practically a beginner's orchestra, but we are working hard and are gradually winning a place for ourselves.

## History of A. H. S. Arrow

---

In November 1920, the high school decided to put out a school paper twice a month. This paper was called the Ouija. It was not put out during the entire year, due to the lack of support, being the first paper put out by the school.

At the beginning of the term 1921, a second and more successful attempt was made to publish a school paper. As the school was very determined to have a school paper and to make it financially successful a contest between the four classes was arranged; the class getting the most subscriptions was to have an issue of the A. H. S. Arrow dedicated to them. The Juniors '22, won in this contest and had their pictures put on the front page of the Arrow. The A. H. S. Arrow was put out twice a month during the entire year and the business men of the town aided us greatly with their advertising.

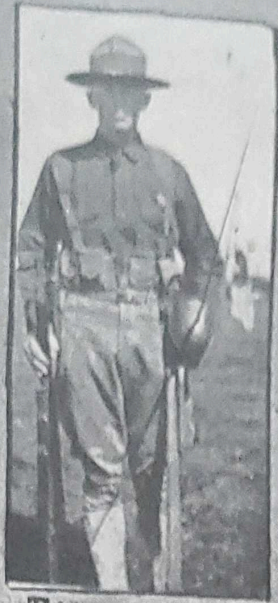

In the year 1922, the paper was again put into circulation. New subscriptions were obtained and much excitement was caused by the election of the new staff. The paper was successful throughout the whole year, and was enjoyed immensely by all the students.

At the first of the year, we decided to sell budget tickets. These tickets were to include the A. H. S. Arrow, all football games, and the operetta. These tickets were sold for three dollars to students not taking part in these things and two dollars to the others. Eighty-three of these tickets were sold. These tickets were not sold to anybody outside of school.

The class reporters for the A. H. S. were, for the Freshmen, Florence McCrory and Ted Ross; for the Sophomores, Bernadine Haine and Omar Snyder; the Juniors, Helen Riepe and Willard LaBounty, and for the Seniors, Belle Harmon and the specials, Guy Haine.

The Editor-in-chief wishes to take this opportunity to thank the rest of the staff and reporters for so generously helping her make this paper a success.

The qualifications for membership are: Any boy who has sufficient knowledge of the nature and effects of tobacco, having the consent and signatures of his parents, may sign a card of application for membership in this club.

Application for membership may also be made through any adult who will become sponsor for the boys conduct while he wears the club badge.

The names of this member and that of his sponsor are to be filed immediately with the Board of Supervision.

This card of application is to be returned to the principal or other sponsor.

The badge is to be granted sixty days after the applicant has kept his promise, if he still desires membership in the '21 Club.

### THE PLEDGE

Realizing our nation's need of clean, strong and efficient men, and hoping to be such a man myself, I hereby promise to abstain from every use of tobacco until I am 21 years of age.

Thirty-five boys joined the club. A prominent townsman and owner of the opera house gave it to us one night each week for our meetings.

The club met every Monday evening, and played games, boxed, wrestled, and all other sports.

Four committees were appointed to provide entertainment and sometimes "eats" for the Club for one week in the month throughout the school year.

### A FAIRY TALE

Once upon a time there was a teacher who never gave exams, and who never took the roll—but—he died!

Conductor: "Change for St. Francis! Change for St. Francis;"  
Passenger: "I don't know who she is but I'll give you a dime."

Miss Knight: "Hayde, who was Cicero?"  
Hayde (who had been reading Jeff and Mutt): "Cicero was Mutt's son."

"What is the difference between a cat and a comma?"  
"A cat has claws at the end of it's paws, and a comma has a pause at the end of a clause."

Father: "What did you and James talk about last night?"  
Thelma: "About Kith and Kin."  
Small Brother: "Yes, he said, 'Kin I have a kith?' and she said, 'Yeth you kin.'"

"Why does he call that his Sunday hat? It looks old."  
"Because he wears it over the weak end."

A professor, who had been a little too exacting with a student at an examination in chemistry, asked as a final question, "Can you tell me anything about Prussic acid?"

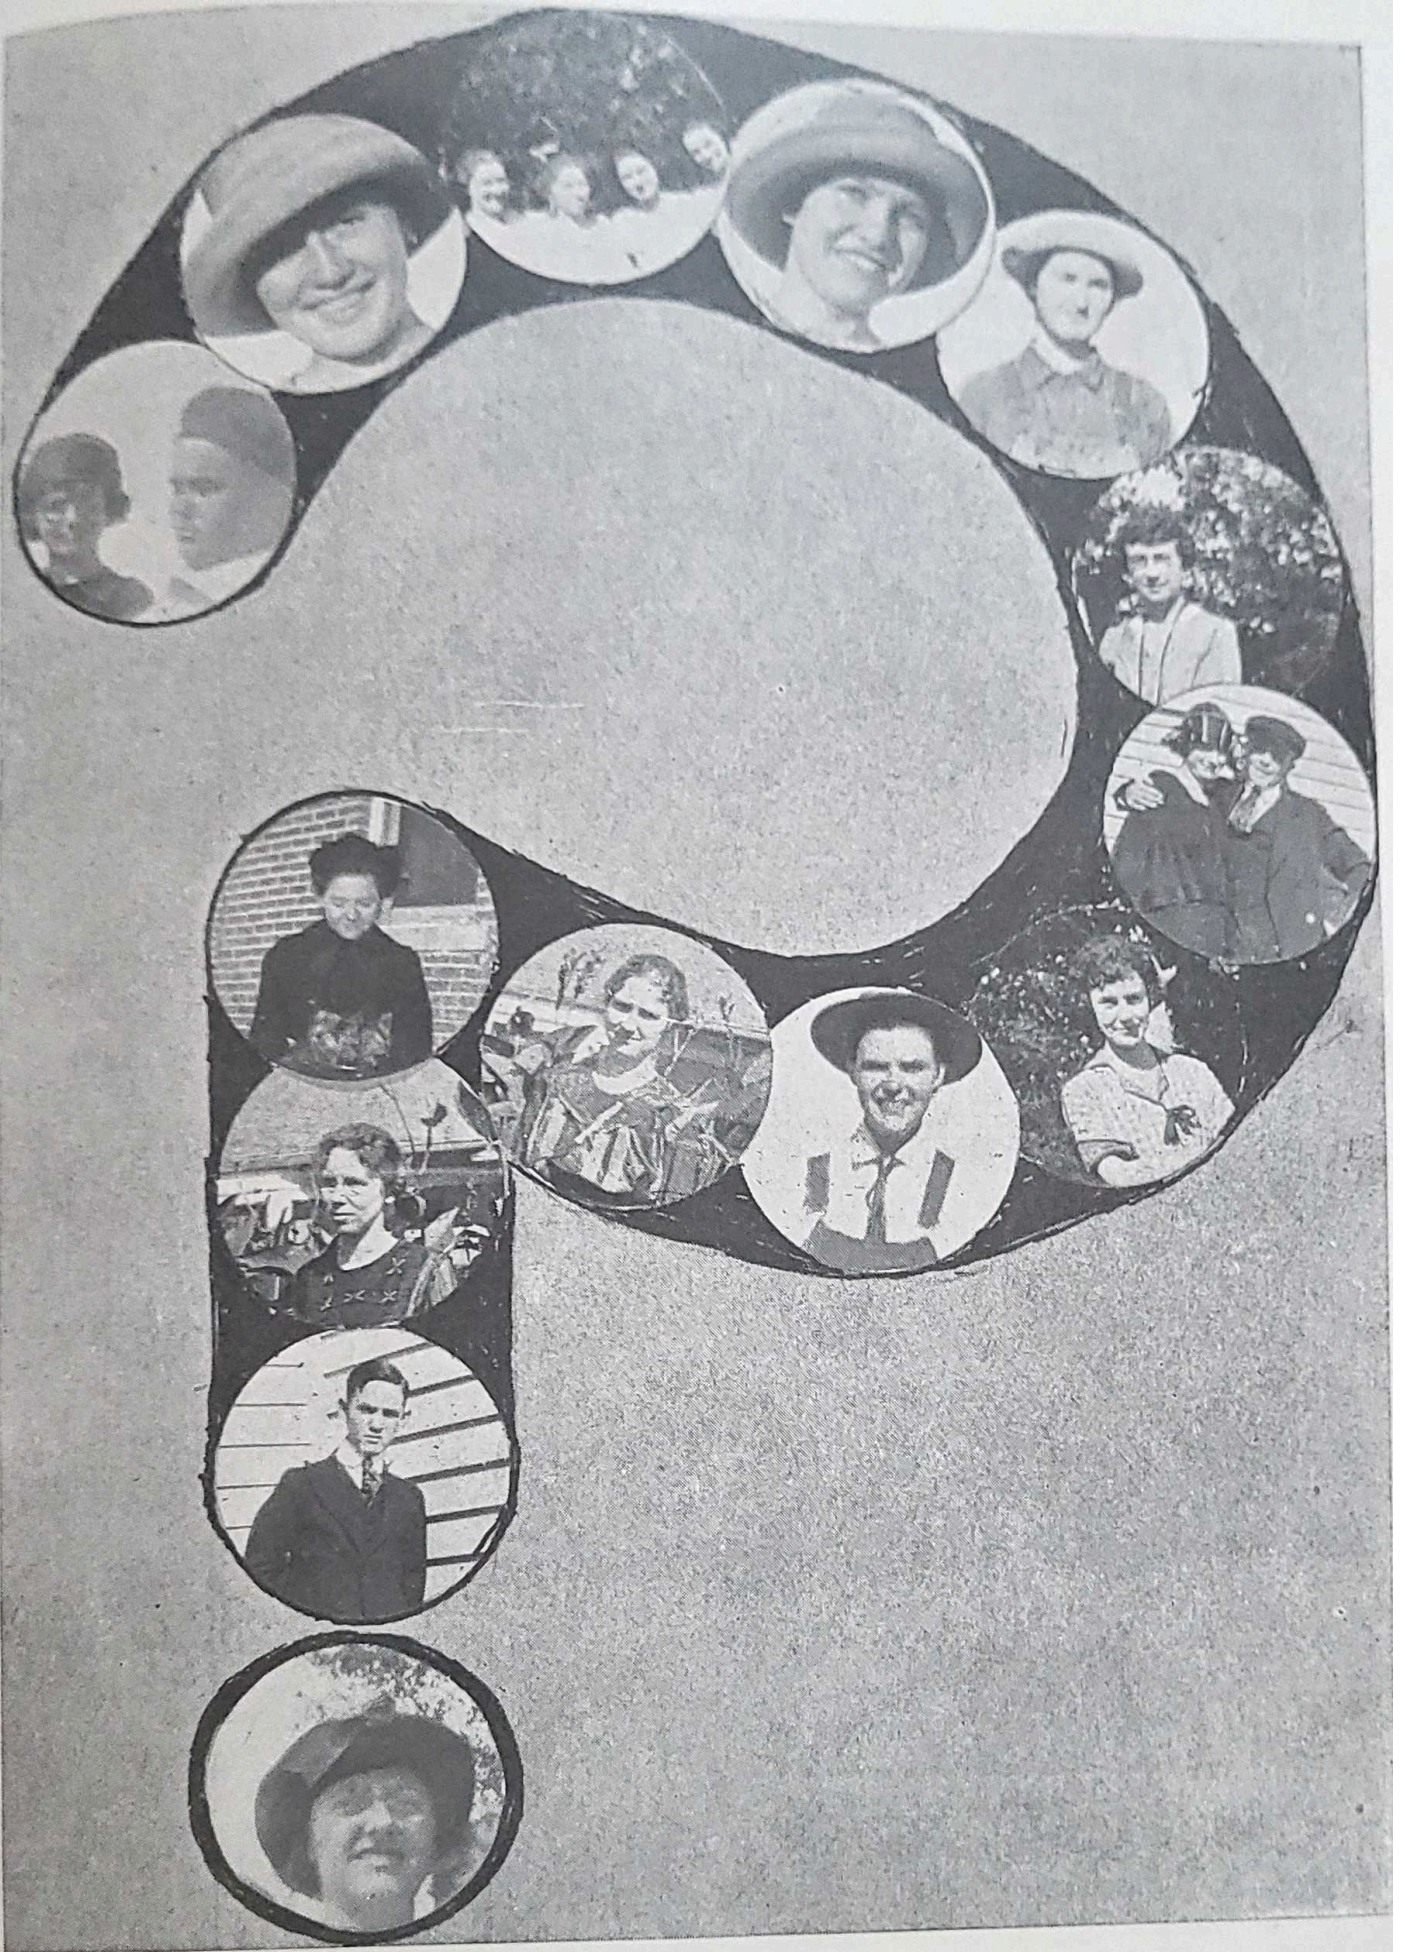

"I'm all out of patients," said the doctor as the hearse left the hospital.

A Florida paper says the moonlight is so bright in that state, that the owls are dying with insomnia.

Some people are so dense that they think a salt-sellar is a traveling salesman.

"Is Henry Ford's money tainted?"  
"Yes. In two ways. Taint yours, and taint mine."

## A SNAPPY COMEBACK

It was midnight. He had been at a jolly birthday party and had wined to well, but not too wisely. He had found his own front door with wonderful accuracy, navigated the front steps with precision, and discovered the keyhole by instinct. Once in the dimly lighted hall there was an ominous silence followed by a tremendous crash of breaking glass.

"Why, what has happened?" came a voice from across the hall.

"It's all right. I'll teach those goldfish to snap at me!"

ZOELLNER BUILDING

SCOTTSBLUFF, NEBRASKA

The new and unusual—that sparkling reality which is known as the life of each school year—is caught and held forever within the pages of Bureau built annuals. The ability to assist in making permanent such delightful bits of class spontaneity rests in an organization of creative artists guided by some 17 years of College Annual work, which experience is the knowledge of balance and taste and the fitness of doing things well. In the finest year books of American Colleges the sincerity and genuineness of Bureau Engraving quality instantly impresses one. They are class records that will live forever.
